

BOOM 3+

in-ear wireless mono headset

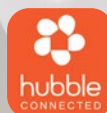

hellolifestyle

The Motorola Boom 3+ wireless headset is a magnificent cohesion of form and function. Easily answer calls with the flip boom microphone, and customize your look with assorted hook sizes and multiple ear cushions. Then enjoy innovative CVC (clear voice capture) audio technology. The Qualcomm chipset provides near and far end noise suppression, providing crystal clear voice calls, while a dual noise cancellation microphone captures and eliminates background noise for augmented voice projection. The Elevoc DSP technology isolates the human voice from environment noise, affording cutting-edge speech enhancement and interaction. With up to 7 hours of talk time, you can complete an entire day on a single charge. And with a range of 33 feet, you'll never have to worry about leaving your phone behind.
