

SAMSUNG

Active User Bundle

Keep the music going – with or without wires.

Our convenient wired/wireless audio bundle is perfect for the Active User. Listen cable-free at the gym, on the go or just about anywhere with the Level Active wireless headphones. When wireless isn't an option, plug in and keep the music going with the Active wired headphones.

Black Bundle EO-BG930CBBNDL

White Bundle EO-BG930CWBNDL

MSRP \$79.99

Active In-ear headphones

The Samsung Active in-ear headset is perfect for the active listener. It combines comfort, stability and high-quality audio into a stylish and compact package. Large 12mm speaker units give the Active serious sound while the contoured ear gels with stabilizing wings make it comfortable enough for long term wear and stable enough for the treadmill.

Features

- Large 12mm drivers
- Winged ear gels for in-ear stability and improved sound
- In-line remote with volume and send/receive phone control
- Ultra-soft, contoured gels reduce unwanted noise and improve audio quality

Available in Black and White

SAMSUNG

LEVEL^{Active}

Wireless fitness earbuds

Level Active delivers quality sound in a lightweight, hassle-free package with up to 5.5 hrs battery life – enough for even the longest workout. A variety of ear hooks, eartips and stabilizing wingtips allow you to find the perfect fit, keeping your headset in place during even the most intense activity. The earbuds are connected by a convenient around-the-neck cable with built-in remote for controlling music and calls.

Features

- Android and iOS[†] compatible.
- Wireless around-the-neck design
- P2i coating protects speakers from sweat and weather*
- Up to 5.5hr/5.5hr/250hr (play/talk/standby)**
- Hold active key on right earbud for 3 seconds to connect directly to S Health to track performance and activity**
- Designed for fitness with a variety of stabilizing ear piece options

Available in Black and White

*Exposure to excessive moisture can cause severe malfunction.

**Compatible with Samsung S-Health, clock and timer apps

**Battery power consumption depends on factors such as configuration, connected mobile devices, signal strength, operating temperature, features selected, frequency of calls and voice, data and other application usage patterns.
