

## Galaxy Buds2

# Epic sound for everyone

Galaxy Buds2 is here, bringing a way for everyone to enjoy epic sound. With audio quality this good, you'll feel the thump of every bassline and strum of every guitar right in your core — it's like dropping you into your favorite band's concert. Need to focus? Active Noise Cancellation and Ambient Sound control let you hear only what you want to hear. Enjoy some peace and quiet while you work from home or take calls without missing what's happening around you. Featuring our slimmest and lightest design yet, Galaxy Buds2 fit so well, you may forget you're wearing them — at least until the music starts.

### Your ears never had it so good.

Take your passion for music to new heights with booming sound that makes you feel like you're on stage with your favorite band.

### Tune out noises. Tune in voices.

Active Noise Cancellation blocks out unwanted sounds, helping you keep your focus wherever you are. And low-latency Ambient Sound mode picks up the sounds you want to hear and broadcasts them right into your ears, so you always have the perfect sound level for every moment.<sup>1</sup>

### Feeling good while looking good

Galaxy Buds2 features a comfortable, low-profile design that's 10% smaller and lighter than Galaxy Buds+. You may get to the end of your playlist before you remember you're wearing them at all.

### Call quality

Call in confidence. With Galaxy Buds2, three microphones and noise-reduction technology ensure voices are transmitted crisply and clearly, whether you're chatting with a friend or leading a high-stakes conference call.

<sup>1</sup>Features including Active Noise Cancellation and Ambient Sound require a Bluetooth connection to a compatible device. Advanced settings such as Ambient Noise Levels available only on Android devices running Android 7.0 or higher and 1.5GB RAM or above. Advanced features enabled through the Galaxy Wearable app on Android, available through the Google Play Store. <sup>2</sup>Actual battery life may vary and depend on usage conditions such as function settings, playback file type and Bluetooth signal strength. Play time may vary based on settings. <sup>3</sup>Not advised for beach or pool use. Charging case is not water-resistant. If the earbuds are damaged, they are not guaranteed to be water-resistant. If the earbuds or your hands are wet, they must be dried thoroughly prior to handling.
